A UNH Technology Transfer Center Workshop
5 Technical Hours

Installation & Maintenance of Culverts
May 9, 2017–Exeter

Purpose: To discuss the installation and maintenance of culvert pipes

WORKSHOP FEE: The **Municipal Registration Fee** is $60.00 and the **Private Registration Fee** is $120.00. This price includes instruction, materials and catering. *These rates remain low due to generous grants from the FHWA and NHDOT.*

What is this class about?

The three most important factors that affect the lifespan of a road are drainage, drainage, drainage. Keep your drainage an under control and your roads living long with a culvert! A culvert is any closed conduit used to conduct surface runoff from one side of a road to the other, from underneath a road or driveway, and leading to a stream, lake, or detention basin. Culvert pipes come in many materials, shapes, and sizes. Each material has its own characteristics and advantages. The focus of this workshop is culvert installation and maintenance.

Schedule
