

A UNH Technology Transfer Center Workshop
5 Environmental Hours

GREEN SNOWPRO TRAINING NOVEMBER 7, 2017 – CONCORD

Purpose: To provide information on the environmental impacts of chlorides; to train plow and salt truck operators on how to safely and efficiently use winter maintenance materials

WORKSHOP FEE: The **Registration Fee** is \$100.00. for municipalities and \$200 for the private sector. This price includes instruction, materials and catering. *These rates remain low due to generous grants from the NHDES, FHWA and NHDOT.*

What is this class about?

Winter operations, especially the use of salt, are a large portion of parking lot and roadway maintenance in NH. This workshop will address the environmental impacts of salt and why it is important to be conscious of these effects. We will cover everything from how to prepare for winter to cleaning-up after a storm, all while minimizing salt use. Liability management through developing customer-specific winter maintenance policies will be discussed, as well as the other economic benefits of becoming certified.

Upon successful completion of a brief exam, attendees will be eligible to apply for Certification through the NH Department of Environmental Services.

What is the Learning Format?

- Classroom instruction and discussion
- Exercises in solving common problems
- Field Calibration
- Written Exam

What will the workshop cover?

- The legal and economic benefits of being certified for both private and public sector employees
- The environmental impacts of chlorides
- Proper material storage locations and facilities
- Improved winter maintenance techniques
- Increased ability to determine how much salt is needed for any given parking lot or private road

Who should attend?

- Privately contracted plow/salt truck operators and supervisors
- State and municipal employees

Schedule

8:00 - 8:30

Registration &
refreshments

8:30 - 11:30 Workshop

11:30-12:00 Lunch
