

Rollover Protective Structures Policy

The purpose of the Rollover Protective Structures Policy is to protect employees from hazards associated with rollover protective structures and to ensure compliance with New Hampshire Department of Labor Standard 1403.49, Rollover Protective Structures.

A. Responsibilities

Except for side boom-pipe laying tractors and compactors, rollover protective structures of substantial strength shall be used with the following types of materials handling equipment:

- All rubber-tired, self-propelled scrapers
- Rubber-tired front-end loaders
- Rubber-tired dozers
- Wheel-type agricultural and industrial tractors
- Crawler tractors
- Crawler-type loaders
- Motor graders, with or without attachments, which are used in construction work
- Forklifts trucks and powered industrial trucks
