

A UNH Technology Transfer Center Workshop
5 Environmental Hours

CULVERT MAINTAINER CERTIFICATION TRAINING OCTOBER 5, 2017—CLAREMONT

Purpose: To discuss the maintenance and replacement of culverts under the NH Department of Environmental Services policies and procedures.

WORKSHOP FEE: The **Municipal Registration Fee** is \$100.00 and the **Private Registration Fee** is \$200.00. This price includes instruction, materials and catering. *These rates remain low due to generous grants from the FHWA and NHDOT.*

What is this class about?

The three most important factors that affect the lifespan of a road are drainage, drainage, drainage. Keep your drainage under control and your roads living long with a culvert! A culvert is any closed conduit used to conduct surface runoff from one side of a road to the other, from underneath a road or driveway, and leading to a stream, lake, or detention basin. Culvert pipes come in many materials, shapes, and sizes, and each material has its own characteristics and advantages. The focus of this workshop is culvert maintenance and replacement.

Upon successful completion of a brief exam, attendees will be eligible to apply for Certification through the NH Department of Environmental Services.
