

A UNH Technology Transfer Center Workshop  
2 Environmental Hours

## CULVERT MAINTAINER RECERTIFICATION TRAINING OCTOBER 12, 2017—CONCORD

**Purpose:** To discuss the maintenance and replacement of culverts under the NH Department of Environmental Services policies and procedures.

**WORKSHOP FEE:** The **Registration Fee** is \$25 for municipalities and \$50 for the private sector. This price includes instruction and materials. *These rates remain low due to generous grants from the NHDES, FHWA and NHDOT.*

### Schedule

8:30 - 9:00 am Registration  
9:00 - 11:00 am Workshop

### What is the Learning Format?

- Classroom instruction and discussion
- Exercises in solving common problems

### What will the workshop cover?

- Importance of culverts
- Types of culverts
- Trenching safety
- Culvert maintenance and replacement
- Certification and requirements

### Who should attend?

- Public works directors and road agents
- Others who clean, inspect, or install culverts
- Others municipal officials

### What is this class about?

The three most important factors that affect the lifespan of a road are drainage, drainage, drainage. Keep your drainage under control and your roads living long with a culvert! A culvert is any closed conduit used to conduct surface runoff from one side of a road to the other, from underneath a road or driveway, and leading to a stream, lake, or detention basin. Culvert pipes come in many materials, shapes, and sizes, and each material has its own characteristics and advantages. The focus of this workshop is culvert maintenance and replacement.

*Upon successful completion of this recertification workshop, attendees will be eligible to re-apply for Certification through the NH Department of Environmental Services.*

### Instructor:

**Steve Gray** is a former NHDOT state maintenance engineer with over 35 years of experi-
