

GREEN SNOWPRO TRAINING

A UNH Technology Transfer Center Workshop
5 Environmental Hours

WHAT IS THIS CLASS ABOUT?

Winter operations, especially the use of salt, are a large portion of parking lot and roadway maintenance in NH. This workshop will address the environmental impacts of salt and why it is important to be conscious of these effects. We will cover everything from how to prepare for winter to cleaning-up after a storm, all while minimizing salt use. Liability management through developing customer-specific winter maintenance policies will be discussed, as well as the other economic benefits of becoming certified.
