

ROAD MAINTENANCE 101 FOR ADMINISTRATORS & ELECTED OFFICIALS

A UNH Technology Transfer Center Workshop
5 Supervisory Hours

WHAT IS THIS CLASS ABOUT?

A municipality's road network is one of, if not the most important and valuable public asset.

Roads play a central role in everything from public safety and education to economics and social interaction. As a result, municipal leaders are routinely faced with taxpayer questions and challenging decisions regarding road maintenance plans.

This course, designed specifically for Town Administrators, Managers, and elected officials, will provide an overview of numerous aspects of road maintenance to help municipal leaders make the most fiscally responsible and beneficial decisions for their communities. Topics of discussion will include: road design and construction, pavement management and road network approach, pavement aging and life cycle, treatment options and timing, budgeting and maintenance strategies.
