

# 2024 NH ROADS SCHOLAR DIRECTORY

UNH Technology Transfer Center

New Hampshire  
Technology Transfer Center

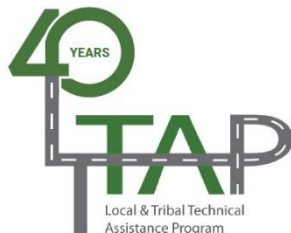

## About Us:

The University of New Hampshire Technology Transfer Center (UNH T2) has been designated as one of the 51 Local Technical Assistance Programs (LTAP) established in all fifty states and Puerto Rico by the U.S. Congress.

UNH T<sup>2</sup> primarily serves the Public Works Directors and employees, Road Agents, and the municipal officials concerned with local roads, along with others in the public and private road-related organizations.

The New Hampshire Department of Transportation (NHDOT) and Federal Highway Administration (FHWA) fund UNH T2.

For quality assurance, UNH T2 has adopted the criteria of the International Association for Continuing Education. This association, in addition to setting standards for high quality training, also governs the issuance of continuing education units (CEUs). By fulfilling their standards, UNH T2 workshops qualify for issuance of CEU's which the UNH Division of Continuing Education will issue for free to any UNH T2 workshop attendee.

November 15, 2024

To: Roads Scholars  
Advisory Board Members  
Directors of Public Works  
Municipal Officials

The University of New Hampshire Technology Transfer Center (UNH T2) held its first workshop in May of 1986, with over 1,800 workshops offered in the almost 40 years since then. In that time, over 8,000 people attended at least one workshop.

The Roads Scholars and Safety Champions recognized in this directory have taken a UNH T2 workshop within the last three years. This demonstrates that they are actively working to expand their professional knowledge, improve their career performance, and enhance their personal and professional development through continued training.

I hope that the municipalities, elected officials, departments, and communities they serve also recognize their achievements.

I also wish to recognize the individuals who instructed UNH T2 workshops during 2024 or served on the Advisory Board. The quality of UNH T2 workshops is due in large part to the skills, dedication, and professionalism of these individuals.

It is my pleasure to congratulate each of the Road Scholars listed in this Directory!

Sincerely,

Marilee Enus  
Director, Technology Transfer Center

“The goal of education is the advancement of knowledge and the dissemination of truth.”

*~John F. Kennedy*

## UNH T2 Staff:

- **Erin Bell, Ph.D.** - *Principal Investigator*
- **Marilee Enus** - *Technology Transfer Center Director*
- **Scott Kinmond** – *Technical Specialist and Instructor*
- **Lee Cooper** – *Program Coordinator*
- **George “Butch” Leel** - *Senior Training Instructor*
- **Leyna Westbrook** - *UNH Office Assistant*
- **Tyler Tommila** – *Technical Specialist*
- **Chris Dowd** – *SADES Manager*

## UNH T2 2024 Advisory Committee:

### **NHDOT Representative**

**Glenn Davison** - Supervisor of Systems Planning, Civil Engineer VI, Division of Project Development

**William Lambert** - State Highway Safety Administrator at NHDOT and NHDOT Safety Section Representative

**Alan Hanscom** - State Maintenance Engineer at NHDOT and NHDOT Maintenance Representative

### **FHWA Representative**

**Michelle Marshall** - Safety & Area Engineer, NH Division FHWA

### **NH Public Works Association Municipal Representative**

**Martha Drukker** - Associate Engineer, City of Concord

# NH Roads Scholar Program

The NH Roads Scholar Program establishes educational and training requirements across six levels of achievement and includes coverage of subjects essential to effective local road management.

There are a minimum number of contact hours for each level, and subject coverage is established for Roads Scholar II. Contact hours measure the time of instructor-to- learner interaction. A typical UNH T2 one-day workshop is five hours of instruction and is equal to five contact hours. By incorporating subject areas, as opposed to specific courses, UNH T2 can respond to recommendations for training by developing workshops for new technologies and current trends.

All requirements must be met to advance in the program. The table below lists the contact hours (and Roads Scholar II subject areas) needed for each level.

**Roads Scholar I:** Requires 25 contact hours

**Roads Scholar II:** Requires 50 contact hours, with 40 hours in specific categories:

20 hours *Technical category*

5 hours *Supervisory category*

10 hours *Safety category*

5 hours *Environmental category*

**Senior Roads Scholar:** Requires 75 contact hours

**Master Roads Scholar:** Requires 100 contact hours

**Master Roads Scholar II:** Requires 150 contact hours, and must be a Safety Champion\*

**Advanced Master Roads Scholar:** Requires 200 contact hours, and must complete the objective to participate in, and help improve, the working lives of your colleagues and the public works community (determined on an individual basis)

For specific details, visit <https://t2.unh.edu/roads-scholar-program>

\***Safety Champion** is a side award given once a recipient achieves 20 Safety hours, regardless of what level the recipient has reached in the Program.

## 2024 Workshop Instructors

- Bobby Betsold – All States Materials Group
- Bruce Davis - All States Materials Group
- Chris Albert - CSA Environmental Consultants, LLC.
- George "Butch" Leel - UNH T2
- Marilee Enus - UNH T2
- Mike Allen – 3M Corporation
- Sandt Michener – NH Department of Transportation
- Scott Kinmond - UNH T2
- Tyler Tommila - UNH T2
- Brent Beebe
- A.J. Dupere - NH Division of Forests and Lands
- Dode Gladders – UNH Cooperative Extension
- Eric Healey – NHDOT
- Sadie Rosethorn – Level Up Coaching

# 2024 Workshops

ADA and Accessibility in Pedestrian Infrastructure - Municipal Musts

ATSSA Flagger

Backhoe Operation & Safety - Hands-On

Backhoe Operation Intro to Safety & Maintenance

Certified Culvert Maintainer

Certified Culvert Maintainer Recertification

Chainsaw Safety & Maintenance

Drainage, Drainage, Drainage

Executive Presence

Free & Almost Free Tech Tools to Improve Public Works Operations

Freebie Feature - Construction Safety - Confined Spaces

Freebie Feature - Guardrail Basics

Freebie Feature - Guardrail Maintenance and Repair

Freebie Feature - Introduction to GIS Mapping

Freebie Feature - Maintenance of Traffic for Technicians

Freebie Feature - Safe System and Low-Cost Safety Improvements

Grader Operation & Safety - Hands-On

Grader Operation Intro to Safety & Maintenance

Gravel Road Maintenance

Influence with Authority

Installation & Maintenance of Culverts

Intro to Public Works Budgeting

Keeping Each Other Safe in Work Zones

Lines, Levels & Layouts

Municipal Tree Workers Workshop

Pavement Maintenance 101

Pavement Marking & Sign Technology

Reducing Rural Roadway Departures 101

Road Managers Exchange Group

Roadside Mowing & Safety

RSAP Module 1 - Introduction to Road Safety
