

2017 Build a Better Mousetrap Competition -Entry Form-

Have you or one of your co-workers recently built an innovative gadget or developed an improved way to do a job? Well, now is the time to show off a project your agency is proud of in our **Build a Better Mousetrap Competition!**

NH LTAP is excited to bring the Build a Better Mousetrap competition to New Hampshire, so get those creative juices flowing! Have you or any of your fellow crew members recently built an innovative gadget or developed an improved way to do a job? It can be anything from the development of tools, equipment modifications, and/or processes that increase safety, reduce cost, improve efficiency, or improve the quality of transportation.

Build a Better Mousetrap's purpose is to collect and disseminate real world examples of best practices, tips from the field, and assist in the transfer of technology. The competition is a fantastic way for innovative ideas to be exchanged with others that may benefit from different concepts and perspectives.

We look forward to receiving your entries – best of luck to everyone!
