

# UNH T<sup>2</sup>

The UNH Technology Transfer Center (UNH T<sup>2</sup>) provides training and services to municipal employees, public and private road associations, and citizens, regarding new technologies and the management of roads and bridges. Established at UNH in 1986 by the Federal Local Technological Assistance Program (LTAP), the center is sponsored by the Federal Highway Administration, the N.H. Department of Transportation, the University of New Hampshire, and the national LTAP and TTAP Program.

## Staff

**Charles Goodspeed**, *Director*  
**David Salzer**, *Project Manager*  
**Patrick Santoso**, *Project Manager*  
**Beth Hamilton**, *Training Program Manager*  
**Butch Leel**, *Senior Training Instructor*  
**Amy Begnoche**, *Training Program Assistant*

## GIS Supervisor

Lori Mather

## Graduate Student Project Engineers

Anabelle Allen, Tim Harmon, Justin Pelletier,  
 Hannah Pierce, Rowen Prescott, and Olivia  
 Von Den Benken

## Student Project Assistants

Rachel Beaudry, Grigoriy Androsov

## Advisory Board

### NHDOT Representatives

Glen Davison, *Planning & Community*  
 Nancy Mayville, *Planning & Community*

### FHWA Representative

Christopher Tilley, *FHWA Area Engineer*

### Municipal Representatives

Alex Cote, *Road Agent, Deerfield*  
 Martha Drukker, *Associate Engineer, Concord*  
 Richard Lee, *DPW Director, New London*

### NH Public Works Standards & Training Council

Dave Danielson, *Forecee Advocacy LLC*

## NH Mosaic Parcel Map Awarded as “Bright Idea”

The New Hampshire Mosaic has been designated a “Bright Idea” by the Harvard Kennedy School, Ash Center for Democratic Governance and Innovation. The Bright Ideas program is designed to further recognize and promote creative government initiatives and partnerships in all levels of government including: state, federal, county, public-private partnerships, and schools. Each project creatively addresses issues ranging from urban sprawl, environmental protection, academic achievement, disaster preparedness, and public health.

The Bright Idea designation is part of the Kennedy School’s Innovations in American Government Awards program which recognizes and promotes excellence and creativity in the public sector.

“Government innovation does not require endless resources and generous budgets,” said Stephen Goldsmith, Director of the Innovations in Government Program at the Ash Center. “As exemplified by this year’s Bright Ideas, some of our country’s smartest innovations can in fact reduce government’s size while serving our citizens more efficiently and effectively.”

This award is a testament to overwhelming cooperation at municipal, county, and state levels of government; however, the greatest debt is owed to the New Hampshire municipalities who diligently maintain and update their tax map and assessing records making this project possible.
