

TOWN OF NEWBURY HIGHWAY DEPT.

PAVING SPECIFICATIONS

1. DEFINITIONS

The term Town shall mean the Highway Foreman or the Selectboard of the municipality.

The term Designee shall mean an employee of the municipality Designated by the Town.

The term Contractor shall mean a professional company Contracted by the municipality to perform work under this agreement.

2. DESCRIPTION

Work under this contract shall consist of the Contractor furnishing equipment to finish grade and compact material to AOT specifications. Pave with bituminous concrete, a two inch base course with a one inch wear course. These depths are compacted.

3. CONSTRUCTION METHODS

The Contractor will finish grade and compact material to State of Vermont AOT specifications.

The Contractor will apply Vt. Type 3 base with the design criteria for Heavy Duty Bituminous Concrete Pavement, to a depth of 2" compacted.

The Contractor will apply Vt. Type 4 wear course with the design criteria for Heavy Duty Bituminous Concrete Pavement, to a depth of 1" compacted.

Compaction densities shall be between 92 percent and 96 percent.

A self-propelled pneumatic-tired roller shall be used on leveling courses unless otherwise authorized by the Town.

A tack coat of Type RS-1 will be applied to the seam of the base course when the second paving pass is started.

A tack coat of Type RS-1 will be applied on any overlay work at a rate of 0.03 gallons per square yard, and shall follow the procedure outlined in section 406.12 of the State of Vermont Agency of Transportation Standard Specifications For Construction 2001.

All joints shall be constructed following the guidelines outlined in section 406.15 of the State of Vermont Agency of Transportation Standard Specifications For Construction 2001.

Reflective Pavement Markers will be applied on centerline, every 100' upon completion or at the end of the workday.

A designated truck cleanout area will be provided. No trucks will cleanout on the project lay down area. It is the responsibility of the Contractor to inform all trucks of the location of the cleanout areas.

4. JOB DESCRIPTIONS

Job 1- TH# 4 Scotch Hollow Rd. (2750' X 22' X 3") apx. 1120 ton.
(600' X 22' X 1") apx. 82 ton.
(Approaches/aprons) apx.50 ton.
Approximately 1252 tons.

5. TRAFFIC CONTROL

The Contractor will supply all necessary traffic control and warning devices, as per MUTCD.

6. METHOD OF PAYMENT

Payment for work under this agreement shall be made at the contract unit price per ton times the number of tons, measured by the Contractor and the Town or his/her designee. Upon completion of work, and acceptance by the Town, the Contractor shall submit a payment request to the Town.

Payment shall be net thirty days.

7. NOTES

The Town or its Designee shall perform any testing.

No mix will be accepted that has a temperature of less than 250 degrees Fahrenheit when it enters the paver.

Rollers shall not be stopped or parked on the freshly placed mat.

No traffic will be permitted on material placed until the material has been thoroughly compacted and has cooled to 140 degrees Fahrenheit.

Work to be completed during the month of August 2006.

Bids will be judged on a per-ton basis.

The bid price will carry for the entire 2006 construction season.

Bids to be received at the Newbury Town Clerks Office
P.O. Box 126 Newbury Vt. 05051, by May 29th 2006, at 7:00 PM.

The Town reserves the right to reject any and all bids, and to Choose the bid that is deemed to be in the best interest of the Town.

Contact: Bob Beaulieu Highway Dept 802-429-2401 for any questions.
