

### *Transfer Station Weigh Master*

The Transfer Station Weigh Master is in charge of running the scale house and keeping track of all the financial transactions. He/she is responsible for monitoring fullness of both demolition boxes. He/she is also responsible for recording and reporting to the hauler daily all compactor ram pressures of all compactors, glass, newsprint, and steel. He/she reports propane tanks, batteries, Freon removal, fluorescent bulbs and ballasts, as collection and space constraints warrant.

*From the Town of Amherst's Policy and Procedure Manual, 2009.*
