

### ***Town Map***

To the extent of available resources, the Department of Public Works will assist in providing information to the Nashua Regional Planning Commission, the Amherst Planning/Zoning Department, NH E-911, and the Amherst Planning Board in developing an official street map. The official map, maintained and updated annually, reflects changes made by the town and/or private interests. These changes must be approved by the Amherst Planning Board and Board of Selectmen to further the town's interests in maintaining state straight-line mapping and ultimately, State and/or Federal road grant money.

*From the Town of Amherst's Policy and Procedure Manual, 2009.*
